Does the Support Center provide equipment for check-out?

Daniel Martin - 2016-08-18 - 0 Comments - in Equipment Loan Program

Dominican University has long supported our campus community's access to education technology through the Equipment Loan Program.

Our Equipment Loan Program has an inventory of equipment useful for a variety of disciplines. To use this program:

1. Review the Equipment Categories list below to see if we carry the equipment-type that you need.
2. Contact the Support Center, either in person, on the phone or online to place a reservation for your device.
3. On the designated day and time, check-out the reserved device(s) from the Support Center.

Important Notes:

- You must have your Star Card with you when checking-out equipment.
- Reservations will automatically expire for items that are not picked up by the time indicated on the reservation.
- Most items are available for 3 to 5 days.

Items that have not been reserved are available on a first-come first-serve basis. Since some items are very popular, we recommended that you place a reservation as early as you know which equipment you will need during the school year.

We ask that you return the equipment in good condition and in a timely manner so that others may take advantage of this program. If you do not find the equipment you wish to use, please notify the Support Center so that we can put it on our list for future acquisition.

For more specific information, including types and quantities, please contact the Support Center.
