

## Edge Firewall Firmware Update (Remote Desktop Connection)

Stephen Madunic - 2016-11-28 - 0 Comments - in Network Resources

Sonicwall has issued a custom hot-fix firmware update for our firewall. This update will take place from 6am-6:30am on November 29th. If you have an active VPN session during this time, your connection will be terminated and you will just need to login again after the update to reestablish your connection.

If you have any questions, please contact the Support Center at 708-524-6888 or by email at [supportcenter@dom.edu](mailto:supportcenter@dom.edu).
