

How to Create Notes on a Word Document

Maria Guadalupe Tiscareno - 2016-12-07 - 0 Comments - in Desktop Computing

How to Create Notes on a Word Document

1. Select the tab that says "Review"

2. Click on the "New Comment" icon to insert a comment

To insert a comment in a specific location, you can either click on the location and then click on "new comment" or you can create the comment and move it afterwards.
