

How to Delete Multiple Emails at once

Maria Guadalupe Tiscareno - 2016-12-07 - 0 Comments - in E-mail

1. Login to your Dominican Email and go to the folder in which you would like to delete the email. In this example, we will delete the emails under "Inbox"
2. From there, you will click the little check box next to the name of the folder. In this example, it would be next to "Inbox"

3. After clicking the check box, all your emails in that folder should be highlighted. Next, you will click the "Delete" icon.

Note: After clicking delete, you should see the emails that were highlighted are now deleted. If they are not all deleted, repeat steps 2-3.
