

What if I don't want to receive emergency text messages from the University?

Maria Guadalupe Tiscareno - 2016-12-12 - 0 Comments - in Emergency Text Notifications

Opting out of the text alert system is strongly discouraged as the information provided by Dominican University could save your life during an emergency, threatening situation, or at the very least, keep you from to coming to campus on a snow closure day.

- If you choose to opt-out, simply reply "STOP" to any of the emergency text alerts.
