When receiving emergency text notifications does it matter who my mobile phone
provider/carrier is?

When receiving emergency text notifications does it matter who my mobile phone provider/carrier is?

Maria Guadalupe Tiscareno - 2016-12-12 - 0 Comments - in Emergency Text Notifications

No. The emergency text alert system supports all U.S. mobile carriers. If you do change your mobile phone provider, you will not need to change anything. However, if you change your cell number, you must update that information within MyDU.
